"A HUGE part of getting better does not come from doctors but from PEERS."

HOW WE HELP:

Health • Home • Purpose • Community

Health: We help to overcome and manage ones' disease(s) and symptoms.
Home: We help one to maintain a stable and safe place to live.
Purpose: We remind you to participate in meaningful activities within yourself, your family, and your community.
Community: We support your engagement in healthy relationships, and social networks that provide support, friendship, love, and hope.

"Some of the most comforting words in the universe are 'me too'. That moment when you find out that your struggle is also someone else's struggle...that you're not alone, and that others have been down the same road."
